Request for Requirements, [REDACTED]

General:

1. Specific<sup>25X6A</sup> information to be requested from this source is outlined in [REDACTED] (5th revision, Oct 56) and in Requirements for [REDACTED], ORR, Dec 56. It is possible that some of the following requirements may be covered by the foregoing.

25X1X6

25X6A Requirements:

[REDACTED]

1. Estimate the average monthly production for each of these types.

2. If known, what is the factory selling price, in forints, of each tube type.

3. How many pumping stations are installed at this factory for evacuating transmitting tubes; for evacuating mercury rectifiers?

a. Briefly describe these pumping stations.

b. Estimate the total exhaust cycle time scheduled on these stands for each tube type. How many tubes are evacuated at the same time on each stand?

4. How many electrical testing stations are installed at this factory for testing transmitting tubes; for testing rectifiers?

a. Briefly describe test stands. What is the testing time required for each tube type?

5. How many employees work at this plant? Break this total down by office personnel, technical personnel, and labor. What is the estimated total monthly payroll at the plant?

6. Does source know of any proposed increase in production schedules, or facility expansion, as planned for the future?

Approved [REDACTED]

1-7

~~CONFIDENTIAL~~

Electric Co. have been reported as producers of radar. If so, please furnish complete descriptions of radar sets, along with costs, selling prices, and names of customers.

8. Names of domestic and foreign suppliers and details on quantities of materials and components purchased from these sources.

9. Information on pricing methods and subsidies on export orders.

10. <sup>25X6A</sup> Information on the organization of the electronics industry in [REDACTED]

11. <sup>25X6A</sup> An estimate of the probable effects of the recent up-  
rising on the production of the electrotechnical industry of [REDACTED]
